VICK'S

Wholesale Bulb, Seed and Plant Catalogue

For Fall of Nineteen Hundred Twenty-Six

The Prices in This Book are for Florists and Dealers Only

TO all progressive Florists, Dealers, Nurserymen and Growers who get this catalogue we extend our most cordial greetings. This catalogue comes to help you have the most successful fall season you have ever had.

The popularity of fall planting of bulbs and all kinds of hardy plants, shrubs, and roots continues to increase every year as its many advantages become better known. You are doubtless already making strong efforts to get your share of this increasing and profitable business. We are here to help you by furnishing high quality stock, the kind that is sure to give atisfaction, at prices that are reasonable, to enable you to make a good profit.

Our bulb connections abroad are so favorable that hundreds have found that they could supply themselves with bulbs from us cheaper than they could secure the same quality direct from Holland. All of our stock whether from abroad, from various parts of this country, or grown on our farms, is all carefully selected to meet the needs of the most critical trade.

Our Terms are liberal. To parties of approved credit we allow 60 days time, or 2 per cent discount if paid in 10 days from date of invoice, or 3 per cent. if cash is sent with order Orders from new or unknown customers should be accompanied by cash; or, if credit is desired by new customers, satisfactory references, preferably banks and business concerns who have extended credit, will be required. No goods will be sent C. O. D. unless a partial remittance is made as a guarantee that goods will be accepted. *These prices are subject to change without notice.*

Our Facilities are unsurpassed. With freight and express conditions normal we can handle orders rapidly. Nine railroads enter Rochester, whose numerous fast freight and express trains enable customers to secure their shipments promptly.

At prices here quoted we deliver all goods to the freight or express companies in Rochester, with no charges for boxes, packing or carting. With our excellent equipment for shipping we can be depended upon to send out bulbs in apparent good condition; after that our responsibility ceases. While we exercise great care to have all Seeds, Plants and Bulbs true and reliable, we give no warranty, express or implied, as to description, quality, productiveness or any other matter, and we will not be responsible in any way for the crop If the customer does not accept these terms, it is not a sale, and the goods are at once to be returned, and the money paid for same will be refunded. Subject only to the above conditions, and by reason thereof, we make the moderate prices at which we sell our goods.

Special Notice. Customers should give on every order, full name, postoffice, freight or express station, county and State; and also advise whether goods are wanted by express or freight. In the absence of such instructions we will ship according to our best judgment, but will not be responsible for the consequences. WE USUALLY SHIP BY EXPRESS. believing that course to be safer and more satisfactory. But sometimes, in the absence of instructions, we ship by freight, especially in cases of heavy shipments, to points easily reached. We have no fixed rule, however, and advise that customers give their preference.

A Final Request. Customers should advise whether they desire the varieties shipped when ready, or the entire order held until it can be shipped together. If not advised, we will ship when each kind of bulb is ready. The early Bulbs—Paper White Narcissus, Freesias Candidum, Harrisii and Calla Lilies—can be furnished at once: nearly all of these have already arrived. Hyacinths, Tulips, Crocus, etc., in September; Lilies of our own growing can be furnished in October while most imported hardy lilies, do not, as a rule, arrive until late in October or November.

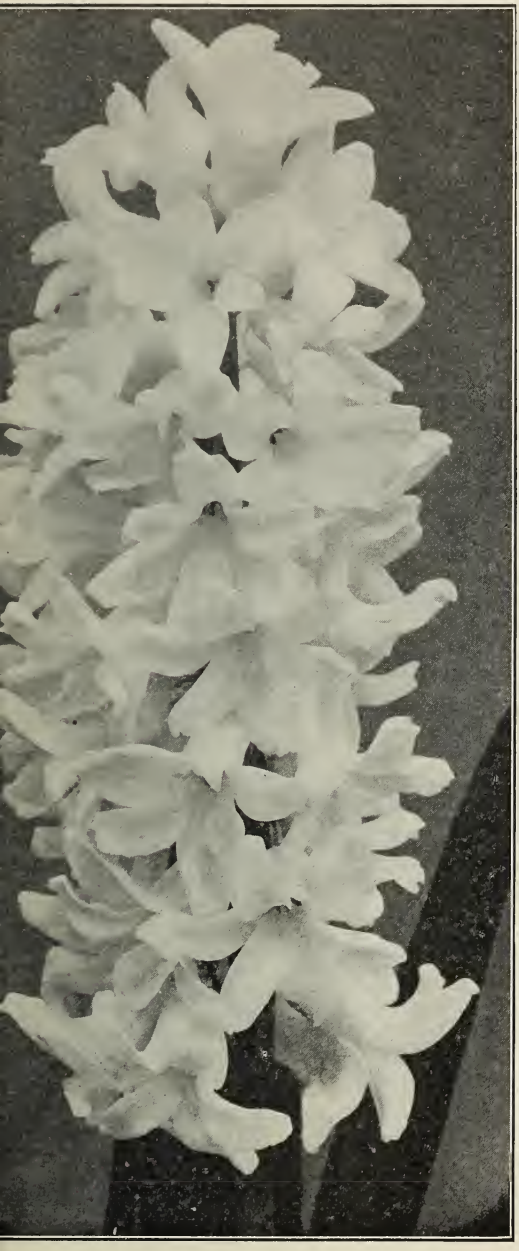
VICK'S HYACINTHS

First Size Bulbs. Especially Selected for Our Trade

The standard size named varieties used in large quantities for forcing.



EVERY report we have received from Holland indicates that Hyacinths will be scarcer than they have been for many years. Not only is the crop short, but the demand has been unusually large from all sources including all countries of Europe. As a result, it will be necessary for you to get your order placed just as early as possible in order to secure a supply. We have ordered as liberally as we dare for our own protection and the protection of our customers. The quality of the stock this year is excellent.

Not less than 6 of one variety at dozen rate, 25 at hundred rate.

Per 1000, single varieties, $105.00; double varieties, $110.00. 250 bulbs at 1000 rate.

Vick's May Flowering Tulips

The May Flowering or Cottage Tulpis bloom about the same time as the Darwins, and like the Darwins are increasing rapidly in popularity. They have long stiff stems and a great variety of color. The characteristic shape of the flowers is long and oval, some are gracefully Lilly flowered with long reflexed petals, and some distinctly goblet shaped. A very interesting useful class.

VICK'S Darwin Tulips

Darwin Tulips are noted for their rare beauty, large flowers, long strong, erect stems, and long flowering period. The stems are from 1½ to 3 feet in height, and bear mammoth blooms of handsome shape in beautiful satiny shades of all colors. The foliage is abundant, strong and heavy. On account of their great beauty they are growing in popularity by leaps and bounds. Planted in connection with the early-flowering kinds they will complete a succession of bloom from early spring until the first of June. While they are especially adapted for outdoor growing, they can be grown for cut flowers under glass if forced slowly. We recommend these named varieties as our selection of over fifty kinds. Varieties marked (*) are especially good for forcing.

Old Dutch Tulips

The Old Dutch Tulips are again coming into prominence and they certainly deserve to be used much more largely than they have for several years past. The Breeders are especially desirable. In them nature's happiest color combinations of purple and mauve, bronze and gold, brown and silver tints are revealed. They harmonize with high class house furnishings as if they were made for such settings. The old varieties with their gaudy, oftentimes flashy colors have been gradually discarded until now we offer in this group the most artistic and pleasing combinations of colors found anywhere in the tulip family.

LILIUM AURATUM

HARDY LILIES

The following list of Hardy Lilies of both Japanese and native culture will be found invaluable by florists in providing a supply of the choicest kind of cut flowers for use during the early summer months. These bulbs may be planted this fall, or they may be planted in the early spring and they will give you flowers at a time when flowers are scarce, at a fraction of the cost of indoor lilies, and once established they are a fixture, as they come up year after year and only require the yearly addition of fertilizer and ordinary cultivation.

The prices on this page are based on the best information available at the time this catalogue goes to press, but are subject to revision up or down according to the market at the time of shipment.

	Per doz.	Per 100
Lilium Album. Beautifully formed white lily, the petals of which are back curved instead of cup shaped like the indoor lilies. 3 to 4 feet high, profuse blooming	$3 50	$25 00
Lilium Auratum. (**Gold Band Lily of Japan.**) Largest and best known of the Japanese lilies. Color, white with crimson spots with golden yellow stripe through center of each petal. Fertilizer must be well mixed with the soil so that it will not come in contact with the roots. 8 to 9 inches.	2 50	18 00
Lilium Candidum. One of the most popular of all the outdoor lilies, and popularly known as the "Madonna Lily."		
Extra Select Bulbs	2 25	15 00
Lilium Magnificum. Crimson. One of the finest of the Speciosum lilies	2 50	18 00
Lilium Melpomene. Crimson, spotted with deep blood red, each petal distinctly bordered with white	2 50	18 00
Lilium Rubrum. Very prolific blooming. White and rose grounds, spotted with crimson. All lilies of this class have back curved petals	2 50	18 00
Lilium Elegans Atrosanguineum. Dark blood red with dark spots	2 50	18 00
" " **Batemanni.** Color, apricot yellow	2 50	18 00
" " **Incomparable.** Deep crimson, slightly spotted with black	2 50	18 00
" " **Best Eight Red.**	2 50	18 00
Lilium Tigrinum Splendens. Single Tiger Lilies	2 25	15 00
" " **fl. pl.** Double " "	2 50	18 00

N. B.—It is good practice to cover the ground that is to be used for hardy lilies with two or three inches of stable manure or litter to prevent the ground freezing so that if the Japanese bulbs arrive in this country late, as they sometimes do, you will still be able to plant them.

Vick's Lilies For Forcing

LILIUM CANDIDUM — Madonna Lily.

LILIUM HARRISII

Invaluable for florists. Can be forced into bloom by Christmas. Our stock comes direct from one of the best growers in Bermuda, to whom we pay special prices to secure extra good bulbs, well grown, thoroughly ripened, carefully packed. We believe this stock will give perfect satisfaction For early flowers Harrisii will be in great demand.

Original case contains 200 bulbs, 7 to 9 inch bulbs. Per dozen, $3.00 ; per 100, $24.00

LILIUM FORMOSUM

This is a splendid pure white, free flowering Lily of the Longiflorum type, imported by us from the Island of Formosa. The Formosum can be forced into bloom earlier than any other Lily of its type except Harrisii, for which it is a good substitute.

Original case contains 300 bulbs, 7 to 9-inch, per doz., $2.50 ; per 100, $18.00.

Size	Per doz.	Per 100
7–9-inch Extra fine, very popular. Original case contains 300 bulbs	2 60	19 00
6-8-inch 2 to 3 flowers to the stalk, original case 400 bulbs.	2 00	14 00

LILIUM CANDIDUM

This variety is sometimes called the Annunciation Lily, or Madonna Lily. Good for forcing, also used for outdoor planting. Its snowy white flowers are borne aloft by long, slender stems. Unsurpassed in stateliness and beauty for outdoor culture.

Selected Large Size Bulbs, Per Doz. $2.25; per 100, $15.00.

Easter in 1927 comes April 17th.

The prices on this page are based on the best information available at the time this catalogue goes to press, but are subject to revision up or down according to the market at time of shipment.

CALLA LILIES

DRY BULBS

Owing to the shortage of the other Lily stocks there is bound to be a tremendous demand for Calla Lily bulbs.

Superior for forcing. Our bulbs are thoroughly ripened and come direct from one of the largest growers in the world.

Large roots, doz., $2 00; 100, $14.00

Mammoth roots. doz., $2.75; 100, $20.00.

FREESIA PURITY

This variety has taken the place of Freesia Refracta Alba and is far superior to it. These bulbs can easily be brought into bloom for Christmas by early planting and always find ready sale. The stock that we handle is a superior, well-selected strain of fully matured bulbs that are sure to bloom under normal conditions. More Freezias will be used than ever before, because Paper Whites are now so scarce. First size. 1-2 to 5-8 per dozen 25 cents; per 100, $1.25; per 1000, $10.00.
Extra choice, 5-8 to 3-4 per dozen, 50 cents; per 100, $2.50; per 1000, $20.00.

NARCISSUS, Paper White Grandiflorus

Inasmuch as the Government now forbids the importation of Naricssus bulbs for sale, we must depend entirely upon American grown bulbs of Paper White Narcissus for this season's supply. Careful tests have been made of bulbs grown in various parts of United States for the past two years and we have selected stock which we believe would be the best obtainable judging by blooming quality and earliness. The supply of good quality Paper Whites is very limited, so we recommend your placing your order as promptly as possible.

1¼ to 1½ inches, dozen, 55 cents; 100, $3.75.
1½ to 1¾ inches, dozen, 65 cents; 100, $4.50.
1¾ inch, and up, dozen, 70 cents; 100, $5.00.

CHINESE SACRED LILY

Used extensively for growing in gravel and water. The flowers are Polyanthus type white with yellow eye borne in clusters on long stems. Per dozen, $1.35. Per basket of 30 bulbs, $3.25. Per mat of 4 baskets, 120 bulbs, $12.50.

Not less than six Bulbs of a kind at the dozen price, 25 at the 100, or 250 at the 1000

PLANTS AND BULBS

LIMITED SPACE does not permit us to enumerate our entire list of Plants and Bulbs. Prices on other varieties will be furnished upon request. It is our aim to offer the best stocks obtainable — strong, true to name, and free from disease and insects. We prefer to furnish the Best, not the Cheapest. Packing charged at cost. Unless so requested, we never ship plants by freight. To insure safe packing, greenhouse plants are removed from the pots.

Early or Winter-Flowering

Spencer Sweet Peas

The growing of Early Winter-Flowering Sweet Peas has now become as much a part of the regular growing plan of all florists as is the carnation bed. Although there are a few recognized varieties that florists have used for a number of years, new sorts of proven merit are being introduced from year to year and the following list contains several of the best of these new introductions as well as a number of the best of the older varieties. Even where you do not have space to grow Sweet Peas in the greenhouse, if you will plant these extra early flowering varieties in a warm, sunny location out-of-doors during January or February you will get your flowers unusually early in the spring.

Sweet Peas sown in greenhouses need more care in planting than those sown in the open ground in order to prevent damping off. Sow very thinly and thin out to about three inches in the row. It is best to sow the tender varieties, such as whites and light pinks, in sand and transplant. Sow ninety to one hundred days ahead of the time that you want the bloom. For Christmas blooming the seeds should be sown about the middle or latter part of September.

Early-Flowering Sweet Peas bloom in one hundred to one hundred and ten days in the open ground under normal conditions. Time required to bring into bloom in the greenhouse will vary more or less according to the amount of sun light and heat.

Our customers tell us that Winter Flowering Sweet Peas are one of their best paying crops and a row through the center of a wide ground bench is a good investment.

CYANOGAS

A new material for generating hydrocyanic gas. The gas is evolved merely by exposure to the atmosphere, making it extremely easy to use. It is by far the most economical method of fumigating greenhouses yet devised, and when directions are followed it is a most effective means of ridding plants of white fly, aphis and many other insects.

Cyanogas G fumigant is recommended for greenhouse fumigating. Cyanogas A dust is more finely pulverized, gives off its gas more rapidly and may be used in a duster for use against rats, moles, ants, woodchucks, ground hogs, squirrels and for orchard dusting when diluted.

When ordering be sure to specify which grade is wanted. Either grade G or A, 1 lb., 60c.; 5 lbs., $2.50; 25 lbs., $8.50; 100-lb. drums, $25.00.

SEMESAN

To prevent damping off.

Semesan is a new organic mercury disinfectant the most effective remedy for fungus disease spores in the soil and also on seed and bulbs. When applied to the soil at the rate of one pound to fifty gallons of water (one part to 400 parts) it will cover one thousand square feet. This has proved to be a practically sure preventive against "damping off." Can also be applied dry. Full directions on each package. 2 oz., 60c.; 8 oz., $1.60; 1 lb., $2.75; 5 lbs., $2.60 per lb.

IMPORTED GRANULATED

PEAT MOSS

TORF MULL

For Florists, Nurserymen and Gardeners

This is decomposed vegetable matter, thoroughly dried, odorless, free from weeds and disease and granulated to convenient size. This material has been used for a great many years in Europe by successful growers there and has already found great favor in this country by the best growers especially as more and more attention is being paid to the fact that productive soil requires large amounts of humus to replace that which is taken off in the form of crops. Granulated Peat Moss is the best substitute for manure. It absorbs and retains ten times its weight of water and the mixing of this material with your potting soil and the addition of a little complete fertilizer, will produce as good results as the very richest manure. For mulching around Evergreens, Rhododendrons, etc., it is unexcelled.

Bulb Fiber. Florists and dealers will find a ready sale for Granulated Peat Moss for bulb fiber. This material is used instead of pebbles or soil for potting Narcissus, Hyacinths and other bulbs and is superior to either one. It retains the moisture and furnishes an excellent medium for the roots of the bulbs to grow in. It never gets sour or stagnant. Does not require for this purpose the addition of charcoal, bone meal or any other material.

Supplied in convenient size 2 qt. cartons at 15c each; large bales, about 21x 21x40 inches covering about 240 square feet one inch deep, $3.00 each.
